

HNB Portal — User Manual

H&B Service Group
Version 1.0 · May 2026

This manual walks you through the H&B portal step by step. Follow the steps in order to understand how the system works and to test every major function from registration to paid invoice.

How to read UI labels: The website and portal are in Dutch. Throughout this manual, on-screen text appears as **Dutch (English translation)**.

Contents

1. [Before you start](#)
 2. [Understanding user roles](#)
 3. [Part I — Public website \(no login\)](#)
 4. [Part II — Freelancer: from sign-up to paid invoice](#)
 5. [Part III — Administrator: managing the portal](#)
 6. [Part IV — Complete end-to-end test \(recommended order\)](#)
 7. [Quick reference](#)
 8. [Troubleshooting](#)
-

1. Before you start

What you need

- A modern web browser (Chrome, Edge, Firefox, or Safari)
- A valid email address for each test user (freelancer and administrator)
- For administrators: access to **Firestore Console** (one-time setup only)

What this portal includes (version 1.0)

Area	What you can do
Public website	Read information, submit contact form, request staff, apply as freelancer
Freelancer portal	Upload compliance documents, view assignments, submit hours, view invoices
Admin portal	Approve users, review applications, assign jobs, approve hours, create invoices

What is not included yet

- Online payment (invoices are marked **Betaald** (Paid) manually by admin)
- Automatic email when something is approved or rejected
- Separate login for B2B client companies

2. Understanding user roles

Role	Who	After login you go to
Visitor	Anyone on the public website	No login — stay on marketing pages
Freelancer (pending)	Registered but not yet approved	/auth/pending
Freelancer (active)	Approved by H&B	/portal/dashboard
Administrator	H&B staff with admin rights	/admin/dashboard

Part I — Public website (no login)

Use these steps to test the public-facing website.

Step 1 — Open the website

1. Open the H&B website in your browser.
2. The home page loads at `/`.
3. On first visit, a **cookie banner** appears at the bottom of the screen.

Step 2 — Accept or decline cookies

1. Read the cookie message.
2. Click **Alleen noodzakelijk** (Essential only) to allow only required cookies, **or**
3. Click **Alles accepteren** (Accept all) to also allow analytics (if configured).
4. For more detail, open **Cookiebeleid** (Cookie policy) from the footer: `/juridisch/cookies`.

Step 3 — Browse the website

1. Use the top menu: **Freelancers**, **Bedrijven** (Companies), **Over H&B** (About H&B).
2. Open any page and confirm content loads correctly.
3. On mobile, open the menu icon and check navigation works.

Step 4 — Submit a contact message (optional)

1. Go to **Contact** — `/contact`.
2. Fill in name, email, subject, and message.
3. Click **Bericht verzenden** (Send message).
4. Confirm the success message appears.

Step 5 — Submit a B2B staff request

1. Go to **Bedrijven** (Companies) → **Personeel aanvragen** (Request staff) — `/bedrijven/personeel-aanvragen`.
2. Fill in all required fields:
 - Company name and contact person

- Email and phone
 - Staff type and event type
 - Location, dates, number of workers
3. Check the **privacyverklaring** (privacy statement) box.
 4. Click **Aanvraag versturen** (Submit request).
 5. Confirm the success message. The request is saved for H&B admin review (Part III, Step 22).

Step 6 — Submit a freelancer application form (optional at this stage)

1. Go to **Freelancers** → **Direct aanmelden** (Register directly) — `/freelancers/direct-aanmelden`.
2. Complete the full application form (personal details, domains, certifications).
3. Accept privacy consent and submit.
4. Note the email address you used — you will need the same email in Part II.

Part II — Freelancer: from sign-up to paid invoice

Follow every step below with a **freelancer test account**. Use a new email address that is not already in the system.

Section A — Create account and wait for approval

Step 7 — Create a portal login

1. Go to **Inloggen** (Log in) — `/login`.
2. Click **Nog geen account? Account aanmaken** → (Create account), or open `/auth/register` directly.
3. Enter your **name**, **email**, and **password** (minimum 8 characters).
4. Confirm the password.
5. Click **Account aanmaken** (Create account).
6. You see a message that your account is **in behandeling** (pending).

Step 8 — View the pending screen

1. You are redirected to `/auth/pending`.
2. The page explains that H&B must approve your account before you can use the full portal.
3. You remain logged in as your email address.

Step 9 — Upload compliance documents (while pending)

1. On the pending page, click **Documenten uploaden** (Upload documents), or go to `/auth/compliance`.
2. For each required document type, upload a PDF or image (maximum about 10 MB):

Document on screen	When needed
VOG (Certificate of conduct)	Always

Document on screen	When needed
Identiteitsbewijs (ID document)	Always
Diploma Beveilig 2+	Security work
Grijze pas (WPBR grey pass)	Security work
BHV-certificaat (First aid)	If applicable
SVH / HACCP	Hospitality work

3. Enter document number and expiry date where the form asks for them.
4. Submit each document. Status shows **In behandeling** (Pending) until admin approves.
5. Repeat for all documents you need to upload.

Step 10 — Wait for H&B approval

1. Stay on `/auth/pending` or log out and log in again later.
2. An administrator must approve your onboarding application and/or your user account (Part III, Steps 18–21).
3. When approved, the portal opens automatically in most cases. If not, click **Uitloggen** (Log out), then log in again at `/login`.

Section B — Use the freelancer portal (after approval)

Requirement: Your account status must be **active**. You should land on `/portal/dashboard`.

Step 11 — Explore the dashboard

1. After login, confirm you are on `/portal/dashboard`.
2. Read the welcome message and summary.
3. Use the quick-link cards to jump to **Opdrachten** (Assignments), **Uren** (Hours), **Facturen** (Invoices), or **Compliance**.
4. Check the compliance summary (how many core documents are approved).

Step 12 — Review compliance status

1. Click **Compliance** in the top menu — `/portal/compliance`.
2. Review each document: **In behandeling** (Pending), **Goedgekeurd** (Approved), **Afgewezen** (Rejected), or **Verlopen** (Expired).
3. If a document was **Afgewezen** (Rejected), upload a corrected file again.

Step 13 — View your assignments

1. Click **Opdrachten** (Assignments) — `/portal/jobs`.
2. If the list is empty, an administrator must assign you to a job first (Part III, Steps 26–29). Wait and refresh.

3. When assignments appear, read title, location, dates, and status.
4. Click **Details bekijken** (View details) on one assignment — `/portal/jobs/{id}`.
5. Read the full job description, shift times, and client information.
6. Click **Uren registreren** (Register hours) to open the hours form with this assignment pre-selected.

Step 14 — Register hours as a draft

1. Go to **Uren** (Hours) — `/portal/hours`, or use the link from Step 13.
2. Click **Uren registreren** (Register hours) — `/portal/hours/new`.
3. Select an **Opdracht** (Assignment) from the dropdown.
4. Enter **work date**, **start time**, **end time**, and **break minutes** if applicable.
5. Add optional notes.
6. Check the calculated total hours preview.
7. Click **Opslaan als concept** (Save as draft).
8. You return to `/portal/hours`. The entry shows status **Concept** (Draft).

Step 15 — Edit and submit hours for approval

1. On `/portal/hours`, find your draft entry.
2. Click **Bewerken** (Edit).
3. Correct any details if needed.
4. Click **Indienen ter goedkeuring** (Submit for approval).
5. Status changes to **Ingediend** (Submitted). You can no longer edit this entry.
6. The summary at the top shows hours in **behandeling** (pending approval).

Step 16 — Wait for hours approval

1. An administrator reviews your hours (Part III, Steps 30–32).
2. Refresh `/portal/hours`. Status should become **Goedgekeurd** (Approved) or **Afgewezen** (Rejected).
3. If **Afgewezen** (Rejected), click **Bewerken** (Edit), fix the entry, and submit again.

Step 17 — View and download invoices

1. Click **Facturen** (Invoices) — `/portal/invoices`.
2. Only **Goedgekeurd** (Approved) and **Betaald** (Paid) invoices appear here (not drafts).
3. Read invoice number, period, hours, amount, and status.
4. Click **PDF** on a row. Your browser print dialog opens.
5. Choose **Save as PDF** or print. The invoice is generated from your browser — it is not stored as a separate file on a server.

Step 18 — Log out as freelancer

1. Click **Uitloggen** (Log out) in the top-right of the portal header.
 2. You return to the public site or login page.
-

Part III — Administrator: managing the portal

Follow these steps with an **administrator** account. If no admin exists yet, complete Steps 19–20 first.

Section A — First-time administrator setup

Step 19 — Create the first admin account

1. Open `/auth/register` in your browser.
2. Register with the email that will become the administrator.
3. Note: the account starts as **in behandeling** (pending).

Step 20 — Promote the account in Firebase

1. Open [Firebase Console](#) for project **hnb-services**.
2. Go to **Firestore Database** → collection **users**.
3. Find the document whose ID matches your user ID (same as Firebase Auth UID).
4. Edit the document and set:
 - `role` → `"admin"`
 - `accountStatus` → `"active"`
5. Save the document.

Step 21 — Log in to the admin portal

1. Go to `/login`.
 2. Enter admin email and password.
 3. Click **Inloggen als freelancer** (Log in as freelancer) — admins use the same login form.
 4. You are redirected to `/admin/dashboard`.
-

Section B — Daily admin tasks (step by step)

Step 22 — Review the dashboard

1. On `/admin/dashboard`, read the KPI numbers (pending users, open onboarding, new requests, hours to review, etc.).
2. Click **Vernieuwen** (Refresh) to update counts.
3. Click any KPI card to jump to the related screen.

Step 23 — Handle a B2B staff request

1. Click **Aanvragen** (Requests) — `/admin/staff-requests`.
2. Set filter to **Nieuw** (New).
3. Find the request from Part I, Step 5.
4. Click **Details** to read company and event information.
5. Click **Oppakken** (Take on). Status becomes **In behandeling** (In progress).
6. Add **interne notities** (internal notes) in the detail panel if needed.

7. When finished, click **Afgerond** (Closed).

Step 24 — Review a freelancer onboarding application

1. Click **Onboarding** — `/admin/onboarding` .
2. Set filter to **In behandeling** (Pending).
3. Find the application from Part I, Step 6 or Part II.
4. Click **Details** and review all submitted information.
5. Add internal notes if needed.
6. Click **Goedkeuren** (Approve) to accept the application and activate the linked user account, or click **Afwijzen** (Reject) to decline.

Step 25 — Approve a pending user account (alternative)

1. Click **Gebruikers** (Users) — `/admin/users` .
2. Find users with status **in behandeling** (pending).
3. Click **Goedkeuren** (Approve) to activate as freelancer, or **Afwijzen** (Reject).
4. The freelancer's session updates live — they usually do not need to log in again.

Step 26 — Review compliance documents

1. Click **Compliance** — `/admin/compliance` .
2. Set filter to **In behandeling** (Pending).
3. Open **Details** on a document.
4. Open the file link and verify the upload.
5. Click **Goedkeuren** (Approve) with optional notes, **Afwijzen** (Reject) with feedback, or **Markeer verlopen** (Mark expired) for expired documents.
6. The freelancer sees the updated status on `/portal/compliance` or `/auth/compliance` .

Step 27 — Create a new assignment

1. Click **Opdrachten** (Assignments) — `/admin/assignments` .
2. In the **Nieuwe opdracht** (New assignment) form, enter:
 - Title and assignment type
 - Location and date range
 - Optional shift times and rate note
 - Optional client company name
3. Click **Opdracht aanmaken** (Create assignment).
4. The new assignment appears in the list below.

Step 28 — Assign a freelancer to the job

1. On the same page, find the assignment you created.
2. Click **Beheren** (Manage) on that row.
3. In the detail panel, check one or more active freelancers.
4. Click **Toewijzing opslaan** (Save assignment).
5. The freelancer now sees the job on `/portal/jobs` (Part II, Step 13).

Step 29 — Approve submitted hours

1. Click **Uren** (Hours) — `/admin/hours` .
2. Set filter to **Ingediend** (Submitted).
3. Open **Details** on an entry from Part II, Step 15.
4. Verify date, times, assignment, and total hours.
5. Click **Goedkeuren** (Approve) with optional internal notes, or **Afwijzen** (Reject) with feedback.
6. Confirm the freelancer sees the new status on `/portal/hours` .

Step 30 — Generate an invoice from approved hours

1. Click **Facturen** (Invoices) — `/admin/invoices` .
2. In **Nieuwe factuur genereren** (Generate new invoice):
 - Select the **Freelancer** from the dropdown.
 - The screen shows how many approved, uninvoiced hours are available.
 - Enter **Uurtarief (EUR)** (Hourly rate) — default is approximately €18.50.
 - Add an optional note for the invoice.
3. Click **Factuur genereren** (Generate invoice).
4. A draft invoice is created. Approved hours are linked so they cannot be invoiced twice.

Step 31 — Review and approve the invoice

1. Set the invoice filter to **Concept** (Draft).
2. Click **Details** and verify line items (dates, assignments, hours, amounts).
3. Click **PDF** to preview via the browser print dialog.
4. Click **Goedkeuren** (Approve).
5. The freelancer can now see the invoice on `/portal/invoices` (Part II, Step 17).

Step 32 — Mark the invoice as paid

1. After payment is processed outside the system (bank transfer, etc.), filter invoices by **Goedgekeurd** (Approved).
2. Open the invoice and click **Betaald** (Paid).
3. Status becomes **Betaald** (Paid) for both admin and freelancer.

Step 33 — Export data to CSV

1. Return to `/admin/dashboard` .
2. Click any export button:
 - **Gebruikers exporteren** (Export users)
 - **Uren exporteren** (Export hours)
 - **Compliance exporteren** (Export compliance)
 - **Facturen exporteren** (Export invoices)
3. A CSV file downloads. Open it in Excel (UTF-8 encoding).

Step 34 — Log out as administrator

1. Click **Uitloggen** (Log out) in the admin header.
-

Part IV — Complete end-to-end test (recommended order)

Use this single numbered list to test the **entire portal** from start to finish. Use two browsers: one for the freelancer, one for the admin.

Step	Who	Action	Verify
1	Visitor	Part I, Steps 1–5: open site, cookies, B2B request	—
2	Freelancer	Part I, Step 6: submit application form	—
3	Freelancer	Part II, Steps 7–9: register, pending, upload compliance	Admin sees onboarding + compliance
4	Admin	Part III, Steps 19–21: ensure admin access	Dashboard loads
5	Admin	Steps 24–26: approve onboarding, user, compliance	Freelancer reaches dashboard
6	Admin	Steps 27–28: create assignment, assign freelancer	Job on <code>/portal/jobs</code>
7	Freelancer	Steps 14–15: save draft hours, submit	Admin sees Ingediend
8	Admin	Step 29: approve hours	Freelancer sees Goedgekeurd
9	Admin	Steps 30–31: generate and approve invoice	Freelancer sees invoice
10	Admin	Step 32: mark Betaald (Paid)	Freelancer sees paid status
11	Admin	Step 33: export CSV	File opens in Excel
12	Both	Log out and log in again	Sessions work correctly

Pass criteria: No errors in the browser console; each status matches the Quick Reference below; freelancers cannot open `/admin/*`; pending users cannot open `/portal/*` except pending and compliance pages.

7. Quick reference

Main URLs

Purpose	URL
Log in	<code>/login</code>
Register	<code>/auth/register</code>
Forgot password	<code>/auth/forgot-password</code>
Account pending	<code>/auth/pending</code>
Upload documents (pending)	<code>/auth/compliance</code>
Freelancer dashboard	<code>/portal/dashboard</code>
Freelancer jobs	<code>/portal/jobs</code>

Purpose	URL
Register hours	/portal/hours/new
Freelancer hours list	/portal/hours
Freelancer invoices	/portal/invoices
Admin dashboard	/admin/dashboard
Staff requests	/admin/staff-requests
Users	/admin/users
Onboarding	/admin/onboarding
Assignments	/admin/assignments
Hours approval	/admin/hours
Invoices	/admin/invoices
Compliance review	/admin/compliance
Request staff (public)	/bedrijven/personeel-aanvragen
Freelancer application (public)	/freelancers/direct-aanmelden

Status labels on screen

Dutch (English)	Used for
In behandeling (Pending / In progress)	Accounts, onboarding, compliance, requests
Goedgekeurd (Approved)	Compliance, hours, invoices
Afgewezen (Rejected)	Applications, compliance, hours
Verlopen (Expired)	Compliance documents
Concept (Draft)	Hours, invoices (admin only for invoices)
Ingediend (Submitted)	Hours awaiting review
Betaald (Paid)	Invoices
Nieuw (New)	B2B staff requests
Afgerond (Closed)	Completed staff requests

Freelancer portal menu

Dashboard · Compliance · Opdrachten (Assignments) · Uren (Hours) · Facturen (Invoices)

Admin portal menu

Dashboard · Aanvragen (Requests) · Gebruikers (Users) · Onboarding · Opdrachten (Assignments) · Uren (Hours) · Facturen (Invoices) · Compliance

8. Troubleshooting

Problem	What to check
Cannot log in	Email/password correct; account approved (<code>accountStatus: active</code> in Firestore)
Stuck on pending page	Admin must approve at Gebruikers (Users) or Onboarding
No assignments visible	Admin must assign you at Opdrachten (Assignments) → Beheren (Manage) → Toewijzing opslaan (Save)
Upload fails	PDF or image only; max ~10 MB; ImageKit must be configured
Cannot submit hours	Select an assignment; end time after start time; only Concept or Afgewezen entries are editable
No hours for invoice	Hours must be Goedgekeurd (Approved) and not already on another invoice
No invoice in freelancer portal	Admin must click Goedkeuren (Approve) on the invoice — drafts are admin-only
PDF button does nothing	Allow pop-ups; use browser print → Save as PDF
Forgot password email missing	Check spam; confirm Firebase email auth is enabled

Appendix — Printable test checklist

✓	Step	Done
☐	1. Website loads, cookie banner works	
☐	2. B2B staff request submitted	
☐	3. Freelancer application form submitted	
☐	4. Freelancer account registered	
☐	5. Compliance documents uploaded (pending)	
☐	6. Admin: onboarding approved	
☐	7. Admin: compliance approved	
☐	8. Freelancer: dashboard accessible	
☐	9. Admin: assignment created and assigned	

✓	Step	Done
☐	10. Freelancer: hours submitted	
☐	11. Admin: hours approved	
☐	12. Admin: invoice generated and approved	
☐	13. Freelancer: invoice visible + PDF	
☐	14. Admin: invoice marked paid	
☐	15. Admin: CSV export works	
☐	16. Forgot password tested	
☐	17. Log out / log in on both roles	

H&B Service Group — HNB Portal User Manual v1.0

Document path: `docs/HNB-PORTAL-USER-MANUAL.pdf` · Regenerate with `npm run manual:pdf`
