

HNB Portal — User Manual

H&B Service Group
Version 1.1 · May 2026

This manual walks you through the H&B portal step by step. Follow the steps in order to understand how the system works and to test every major function — from company job posting and freelancer applications to hours and invoices.

How to read UI labels: The website and portal are in Dutch. Throughout this manual, on-screen text appears as **Dutch (English translation)**.

Contents

1. [Before you start](#)
 2. [Understanding user roles](#)
 3. [Part I — Public website \(no login\)](#)
 4. [Part II — Freelancer: from sign-up to paid invoice](#)
 5. [Part III — Company \(client\): post jobs and select freelancers](#)
 6. [Part IV — Administrator: managing the portal](#)
 7. [Part V — Complete end-to-end test \(recommended order\)](#)
 8. [Quick reference](#)
 9. [Troubleshooting](#)
-

1. Before you start

What you need

- A modern web browser (Chrome, Edge, Firefox, or Safari)
- Valid email addresses for each test user (freelancer, company, administrator)
- For administrators: access to **Firebase Console** (one-time setup only)

What this portal includes (version 1.1)

Area	What you can do
Public website	Read information, submit contact form, request staff, apply as freelancer
Company portal	Register as client, post open assignments, review applications, select a freelancer
Freelancer portal	Browse open jobs, apply, upload compliance, view assigned jobs, submit hours, view invoices

Area	What you can do
Admin portal	Approve users (freelancer + company), review applications, oversee assignments, approve hours, create invoices

What is not included yet

- Online payment (invoices are marked **Betaald** (Paid) manually by admin)
- Automatic email when something is approved or rejected
- Multi-freelancer selection per assignment (one freelancer per job for now)
- Shift scheduling / roster planning (Phase 2)

Mobile use

All portals (company, freelancer, admin) use a **hamburger menu** (☰) on small screens. Tap it to open navigation, email, and log out.

2. Understanding user roles

Role	Who	Login URL	After login you go to
Visitor	Anyone on the public website	—	No login — stay on marketing pages
Freelancer (pending)	Registered but not yet approved	/login (freelancer card)	/auth/pending
Freelancer (active)	Approved by H&B	/login (freelancer card)	/portal/dashboard
Company (client)	Approved opdrachtgever	/login (opdrachtgever card)	/company/dashboard
Administrator	H&B staff with admin rights	/admin/login (not linked on public site)	/admin/dashboard

Part I — Public website (no login)

Use these steps to test the public-facing website.

Step 1 — Open the website

1. Open the H&B website in your browser.
2. The home page loads at / .
3. On first visit, a **cookie banner** appears at the bottom of the screen.

Step 2 — Accept or decline cookies

1. Read the cookie message.
2. Click **Alleen noodzakelijk** (Essential only) or **Alles accepteren** (Accept all).

3. For more detail: footer → **Cookiebeleid** — </juridisch/cookies> .

Step 3 — Browse the website

1. Use the top menu: **Freelancers**, **Bedrijven** (Companies), **Over H&B** (About H&B).
2. On mobile, open the ☰ menu and check navigation works.

Step 4 — Submit a contact message (optional)

1. Go to **Contact** — </contact> .
2. Fill in and send the form.
3. Confirm the success message.

Step 5 — Submit a B2B staff request (without account)

1. Go to **Bedrijven** → **Personeel aanvragen** — </bedrijven/personeel-aanvragen> .
2. Fill in all required fields and privacy consent.
3. Click **Aanvraag versturen** (Submit request).
4. Admin reviews this at </admin/staff-requests> (Part IV, Step 24).

Step 6 — Submit a freelancer application form (optional)

1. Go to **Freelancers** → **Direct aanmelden** — </freelancers/direct-aanmelden> .
 2. Complete and submit the form.
 3. Use the **same email** when registering in Part II.
-

Part II — Freelancer: from sign-up to paid invoice

Follow every step with a **freelancer test account**.

Section A — Create account and wait for approval

Step 7 — Create a portal login

1. Go to **Inloggen** — </login> .
2. Use the **Ik ben freelancer** (I am a freelancer) card only (fields are separate from the company card).
3. Click **Nog geen account? Account aanmaken** → or open </auth/register> .
4. Enter name, email, password (min. 8 characters), confirm password.
5. Click **Account aanmaken** (Create account).
6. Account status: **in behandeling** (pending).

Step 8 — View the pending screen

1. Redirect to </auth/pending> .
2. Page explains H&B must approve your account.

Step 9 — Upload compliance documents (while pending)

1. Click **Documenten uploaden** — </auth/compliance> .

2. Upload required documents (PDF/image, max ~10 MB):

Document	When needed
VOG	Always
Identiteitsbewijs (ID)	Always
Diploma Beveiliging 2+	Security
Grijze pas (WPBR)	Security
BHV / SVH / HACCP	If applicable

3. Submit each document. Status: **In behandeling** (Pending).

Step 10 — Wait for H&B approval

1. Administrator approves onboarding and/or user account (Part IV, Steps 25–27).
2. Portal opens automatically in most cases; otherwise log out and log in again at `/login`.

Section B — Use the freelancer portal (after approval)

Requirement: Account status **active**, role **freelancer**.

Step 11 — Explore the dashboard

1. Confirm `/portal/dashboard` after login.
2. Use quick links: **Open opdrachten**, **Mijn opdrachten**, **Uren**, **Facturen**, **Compliance**.

Step 12 — Review compliance status

1. Click **Compliance** — `/portal/compliance`.
2. Review document statuses; re-upload if **Afgewezen** (Rejected).

Step 13 — Browse open assignments and apply

1. Click **Open opdrachten** — `/portal/feed`.
2. Read open jobs posted by companies (status **Open**).
3. Click **Meer info** (More info) for details.
4. Optionally add a short motivation, then click **Solliciteren** (Apply).
5. Status on the card becomes **In behandeling** (Pending) — waiting for company selection.
6. If already applied, the card shows your application status.

Step 14 — View assigned jobs (after company selects you)

1. Click **Mijn opdrachten** (My assignments) — `/portal/jobs`.
2. **Empty list?** Either no company has selected you yet, or admin assigned you via legacy flow.
3. After selection, the job appears here with status **Toegewezen** (Assigned).
4. Click **Details bekijken** — `/portal/jobs/{id}`.

5. Click **Uren registreren** to open hours form with assignment pre-selected.

Step 15 — Register hours as a draft

1. Go to **Uren** — `/portal/hours` or `/portal/hours/new`.
2. Select **Opdracht**, date, start/end time, break minutes.
3. Click **Opslaan als concept** (Save as draft). Status: **Concept** (Draft).

Step 16 — Submit hours for approval

1. On `/portal/hours`, click **Bewerken** (Edit) on a draft.
2. Click **Indienen ter goedkeuring** (Submit for approval). Status: **Ingediend** (Submitted).

Step 17 — Wait for hours approval

1. Admin approves (Part IV, Step 30). Refresh `/portal/hours` for **Goedgekeurd** (Approved).

Step 18 — View and download invoices

1. Click **Facturen** — `/portal/invoices`.
2. Only **Goedgekeurd** and **Betaald** invoices appear.
3. Click **PDF** → browser print → Save as PDF.

Step 19 — Log out

1. Click **Uitloggen** (Log out). On mobile: open ☰ menu first.

Part III — Company (client): post jobs and select freelancers

Use a company test account. Company accounts must be approved by H&B admin before login works.

Section A — Register and get approved

Step 20 — Register a company account

1. Go to `/login` → **Ik ben opdrachtgever** (I am a client) card, or `/auth/register/company`.
2. Enter company name, contact name, email, password.
3. Click register. Status: **in behandeling** (pending).

Step 21 — Admin approves company account

1. Admin opens `/admin/users` (Part IV, Step 26).
2. Finds pending company user, clicks **Goedkeuren** (Approve).
3. Firestore user gets `role: company` and `accountStatus: active`.

Step 22 — Log in to the company portal

1. Go to `/login`.

2. Use the **Ik ben opdrachtgever** card (separate email/password fields from freelancer).
 3. Click **Inloggen als opdrachtgever** (Log in as client).
 4. Redirect to `/company/dashboard`.
-

Section B — Post an assignment and select a freelancer

Step 23 — Open assignments

1. Click **Opdrachten** (Assignments) — `/company/assignments`, or use dashboard link.
2. On mobile, open **≡ menu** if navigation is hidden.

Step 24 — Create a new assignment

1. Click **Nieuwe opdracht** (New assignment).
2. Fill in title, type, location, dates, optional shift times, rate note.
3. Set status to **Open (zichtbaar voor freelancers)** — required for freelancer feed.
4. Click **Opdracht plaatsen** (Post assignment).
5. Assignment appears in the list. Click **Annuleren** to close the form without saving.

Step 25 — Wait for applications

1. Freelancer applies via `/portal/feed` (Part II, Step 13).
2. On your assignment row, click **Beheren** (Manage).
3. Scroll to **Sollicitaties** (Applications). Each row shows freelancer name, email, motivation, status.

Step 26 — Select a freelancer

1. In **Sollicitaties**, click **Selecteren** (Select) on the desired applicant.
2. Assignment status becomes **Toegewezen** (Assigned).
3. Selected freelancer sees the job under **Mijn opdrachten**; other pending applications become **Afgewezen** (Rejected).
4. Assigned jobs can no longer be edited or deleted.

Step 27 — Log out

1. Click **Uitloggen** in the company header (or via **≡ menu** on mobile).
-

Part IV — Administrator: managing the portal

Use an **administrator** account. Admins log in at a **separate URL** — there is no admin link on the public website.

Section A — First-time administrator setup

Step 28 — Create the first admin account

1. Register via `/auth/register` (freelancer registration path).

2. Account starts as **in behandeling** (pending).

Step 29 — Promote the account in Firebase

1. Firebase Console → **hnb-services** → Firestore → **users** → your UID document.
2. Set **role** → **"admin"** and **accountStatus** → **"active"**.
3. Save.

Step 30 — Log in to the admin portal

1. Open **/admin/login** directly in the browser (bookmark this URL).
 2. Enter admin email and password only — **no registration or forgot-password links** on this page.
 3. Non-admin accounts are rejected with an error message.
 4. Redirect to **/admin/dashboard**.
 5. After logout, you return to **/admin/login**.
-

Section B — Daily admin tasks

Step 31 — Review the dashboard

1. On **/admin/dashboard**, read KPI numbers.
2. Click **Vernieuwen** (Refresh).
3. Click KPI cards to jump to related screens.
4. Use CSV export buttons at the bottom.

Step 32 — Handle a B2B staff request

1. **Aanvragen** — **/admin/staff-requests**.
2. Filter **Nieuw** (New) → **Details** → **Oppakken** → notes → **Afgerond**.

Step 33 — Review freelancer onboarding

1. **Onboarding** — **/admin/onboarding**.
2. Filter **In behandeling** → **Details** → **Goedkeuren** or **Afwijzen**.

Step 34 — Approve pending users (freelancer or company)

1. **Gebruikers** — **/admin/users**.
2. **Goedkeuren** sets role from **intendedRole** (freelancer or company).
3. Company users can then log in at **/login** (opdrachtgever card).

Step 35 — Review compliance documents

1. **Compliance** — **/admin/compliance**.
2. **Details** → verify file → **Goedkeuren**, **Afwijzen**, or **Markeer verlopen**.

Step 36 — Oversee assignments (read-only)

1. **Opdrachten** — `/admin/assignments` .
2. View all assignments posted by companies. **Admin cannot create or assign jobs here** — companies manage their own opdrachten.
3. Use **Beheren** to view details and assigned freelancers.

Step 37 — Approve submitted hours

1. **Uren** — `/admin/hours` .
2. Filter **Ingediend** → **Details** → **Goedkeuren** or **Afwijzen**.

Step 38 — Generate and approve invoices

1. **Facturen** — `/admin/invoices` .
2. Select freelancer, set hourly rate, **Factuur genereren**.
3. Filter **Concept** → **Details** → **PDF** → **Goedkeuren**.
4. After payment: **Betaald** (Paid).

Step 39 — Export data and log out

1. Dashboard CSV exports (users, hours, compliance, invoices).
2. **Uitloggen** → returns to `/admin/login` .

Part V — Complete end-to-end test (recommended order)

Use **three browsers** (or profiles): company, freelancer, admin.

Step	Who	Action	Verify
1	Visitor	Part I: B2B staff request (optional)	Admin: request Nieuw
2	Company	Steps 20–21: register company; admin approves	Company can log in
3	Freelancer	Part II Steps 7–10: register, compliance	Admin: pending user + compliance
4	Admin	Steps 28–30: admin access	Dashboard loads
5	Admin	Steps 33–35: approve freelancer + compliance	Freelancer → dashboard
6	Company	Steps 24–25: post Open assignment	Freelancer sees it on <code>/portal/feed</code>
7	Freelancer	Step 13: Solliciteren	Company sees application
8	Company	Step 26: Selecteren	Job on freelancer <code>/portal/jobs</code>
9	Freelancer	Steps 15–16: submit hours	Admin: Ingediend
10	Admin	Step 37: approve hours	Freelancer: Goedgekeurd
11	Admin	Step 38: invoice generate + approve	Freelancer sees invoice
12	Admin	Step 38: mark Betaald	Freelancer: paid status
13	All	Log out / log in on each portal	Correct login URLs work

Pass criteria: No console errors; statuses match Quick Reference; freelancers cannot open `/admin/*`; company cannot open `/portal/*`; pending users only see pending + compliance pages.

8. Quick reference

Main URLs

Purpose	URL
Log in (freelancer or company)	<code>/login</code>
Register freelancer	<code>/auth/register</code>
Register company	<code>/auth/register/company</code>
Admin log in	<code>/admin/login</code>
Forgot password	<code>/auth/forgot-password</code> (not on admin login)
Account pending	<code>/auth/pending</code>
Compliance (pending user)	<code>/auth/compliance</code>
Freelancer dashboard	<code>/portal/dashboard</code>
Open assignments feed	<code>/portal/feed</code>
Assigned jobs	<code>/portal/jobs</code>
Register hours	<code>/portal/hours/new</code>
Freelancer hours	<code>/portal/hours</code>
Freelancer invoices	<code>/portal/invoices</code>
Company dashboard	<code>/company/dashboard</code>
Company assignments	<code>/company/assignments</code>
Admin dashboard	<code>/admin/dashboard</code>
Staff requests	<code>/admin/staff-requests</code>
Users	<code>/admin/users</code>
Onboarding	<code>/admin/onboarding</code>
Assignments (read-only)	<code>/admin/assignments</code>
Hours	<code>/admin/hours</code>
Invoices	<code>/admin/invoices</code>
Compliance	<code>/admin/compliance</code>

Portal menus

Freelancer: Dashboard · Open opdrachten · Compliance · Mijn opdrachten · Uren · Facturen

Company: Dashboard · Opdrachten

Admin: Dashboard · Aanvragen · Gebruikers · Onboarding · Opdrachten · Uren · Facturen · Compliance

Assignment statuses

Status	Meaning
Concept (Draft)	Not visible in freelancer feed
Open	Visible on <code>/portal/feed</code> ; accepts applications
Toegewezen (Assigned)	Freelancer selected; no more edits by company
Afgerond / Geannuleerd	Completed / cancelled

Application statuses (company selection)

Status	Meaning
In behandeling (Pending)	Awaiting company decision
Geaccepteerd (Accepted)	Selected — job moves to freelancer Mijn opdrachten
Afgewezen (Rejected)	Not selected

9. Troubleshooting

Problem	What to check
Cannot log in as freelancer/company	Use correct card on <code>/login</code> ; account active in Firestore
Cannot log in as admin	Use <code>/admin/login</code> , not <code>/login</code> ; <code>role: admin</code> , <code>accountStatus: active</code>
Admin URL shows 404 on production	Redeploy with <code>vercel.json</code> SPA rewrite; hard refresh
Stuck on pending	Admin approves at Gebruikers or Onboarding
No jobs on <code>/portal/feed</code>	Company must post assignment with status Open
Apply fails	Freelancer must be active ; assignment still Open ; Firebase UID must match <code>users/{uid}</code>
No jobs on <code>/portal/jobs</code>	Company must Selecteren a freelancer, or admin legacy assign
Company cannot edit assignment	Status Toegewezen — editing locked after selection
Upload fails	PDF/image; max ~10 MB; ImageKit configured

Problem	What to check
Mobile menu missing items	Tap ☰ in portal header
No invoice in freelancer portal	Admin must Goedkeuren invoice — drafts are admin-only

Appendix — Printable test checklist

✓	Step	Done
☐	1. Website + cookie banner	
☐	2. Company registered + admin approved	
☐	3. Freelancer registered + admin approved	
☐	4. Compliance uploaded + approved
